# THE EXHIBITION

Conceived from research by the Memorial da Justiça team, the exhibition proposes to stimulate a reflection on the themes of Slavery, Capoeira and Cangaço, from the historical judicial processes that are part of the institution's collection.

Visitors can enjoy the exhibition through mediation, research or experimentation.

They can use the exhibition spaces to promote group dialogues, to research or even read reproductions of fragments of the historical processes of the collection.

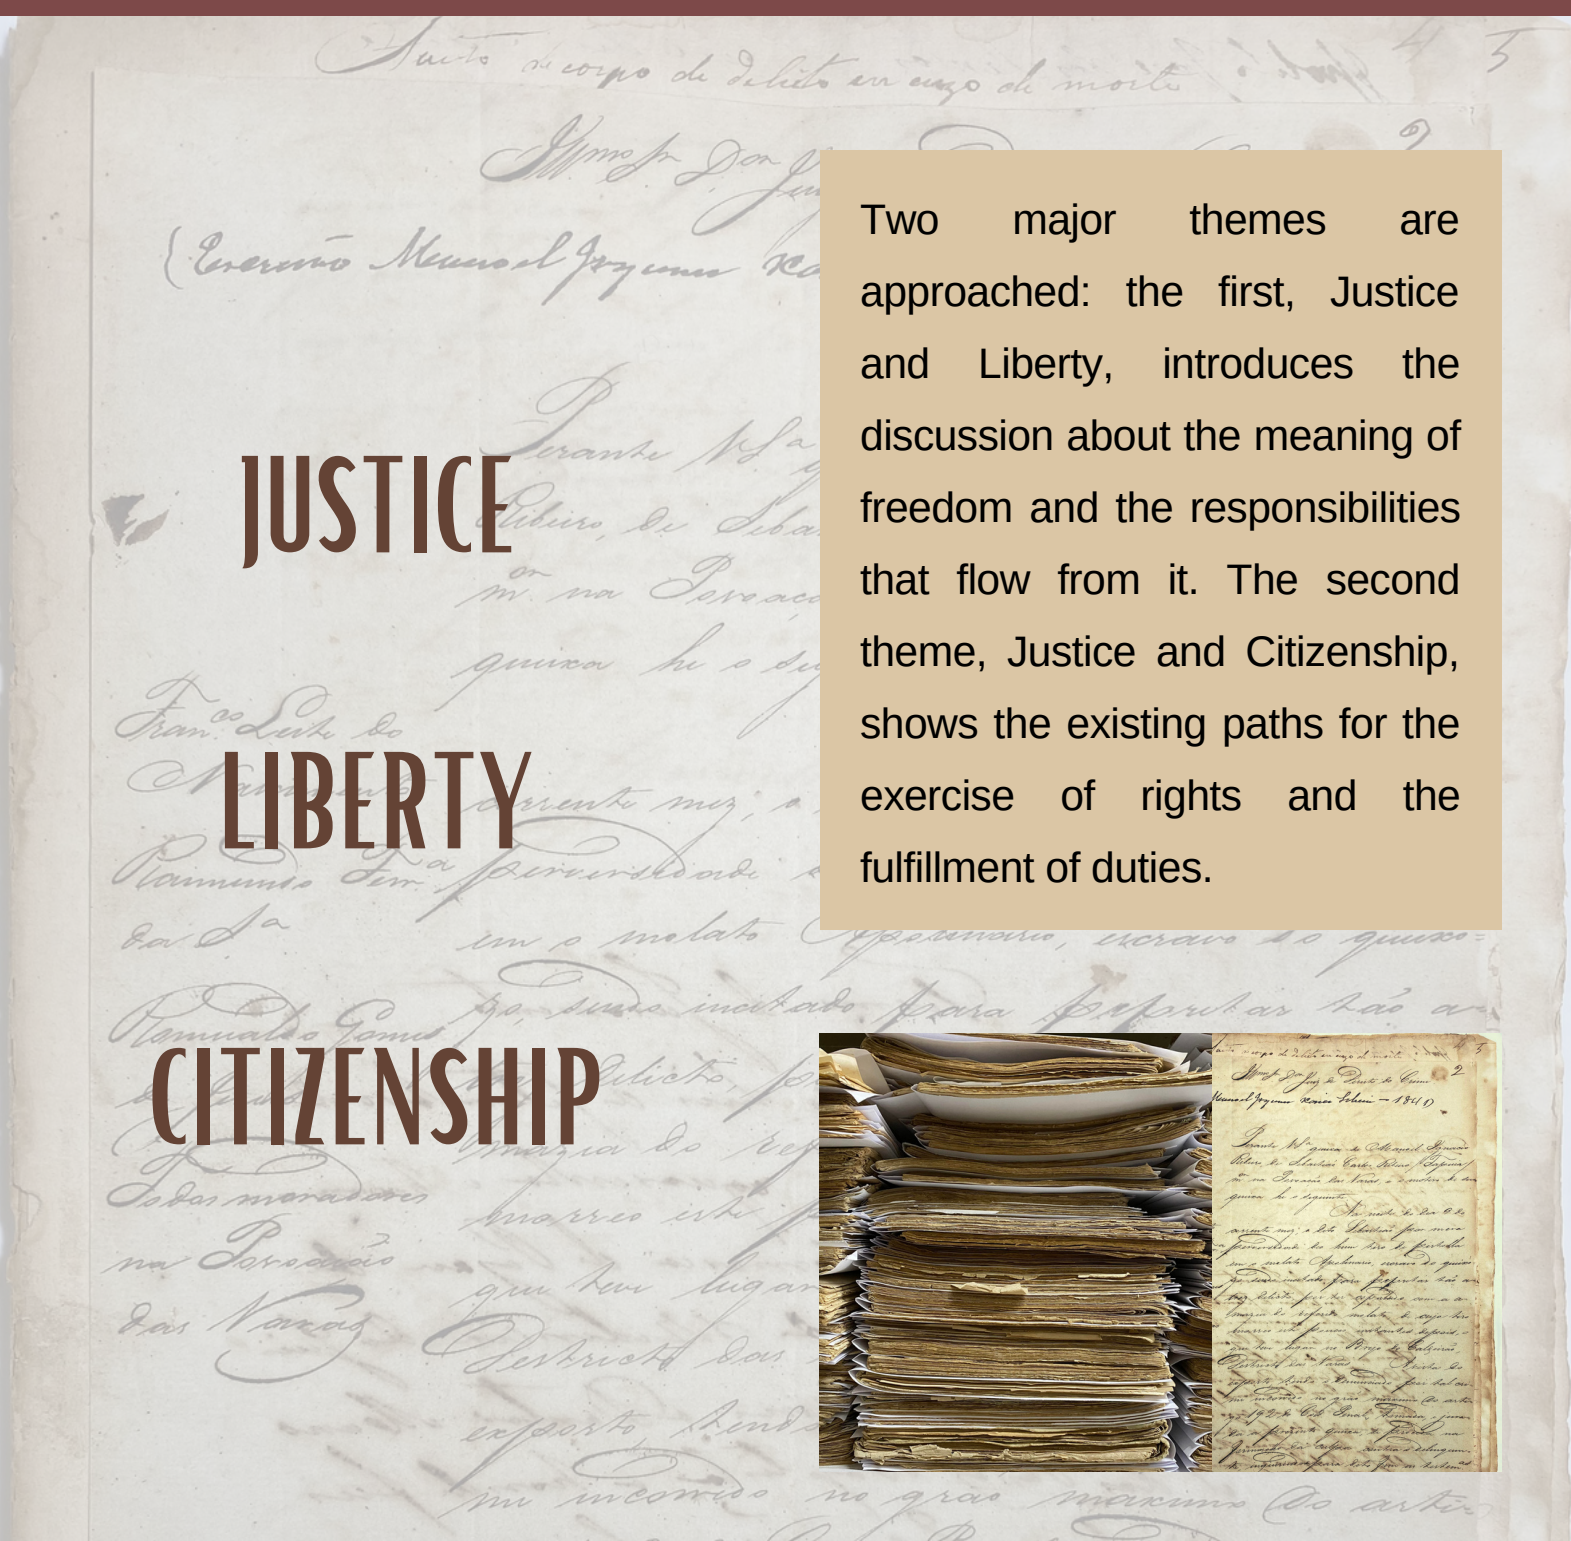

Our rooms offer several possibilities of mediation, from the resignification of varied figurative objects such as: ethnic musical instruments, accessories, artifacts and clothing.

VISITORS CAN KNOW THE OTHER ACTIVITIES THAT MEMORIAL DA JUSTIÇA PERFORMS.

The exhibition "A matter of Justice" seeks to create new paths that help reduce the distance between Society and the Judiciary, through historical references that bridge the gap between the activity of Justice and the social relations existing yesterday and today.

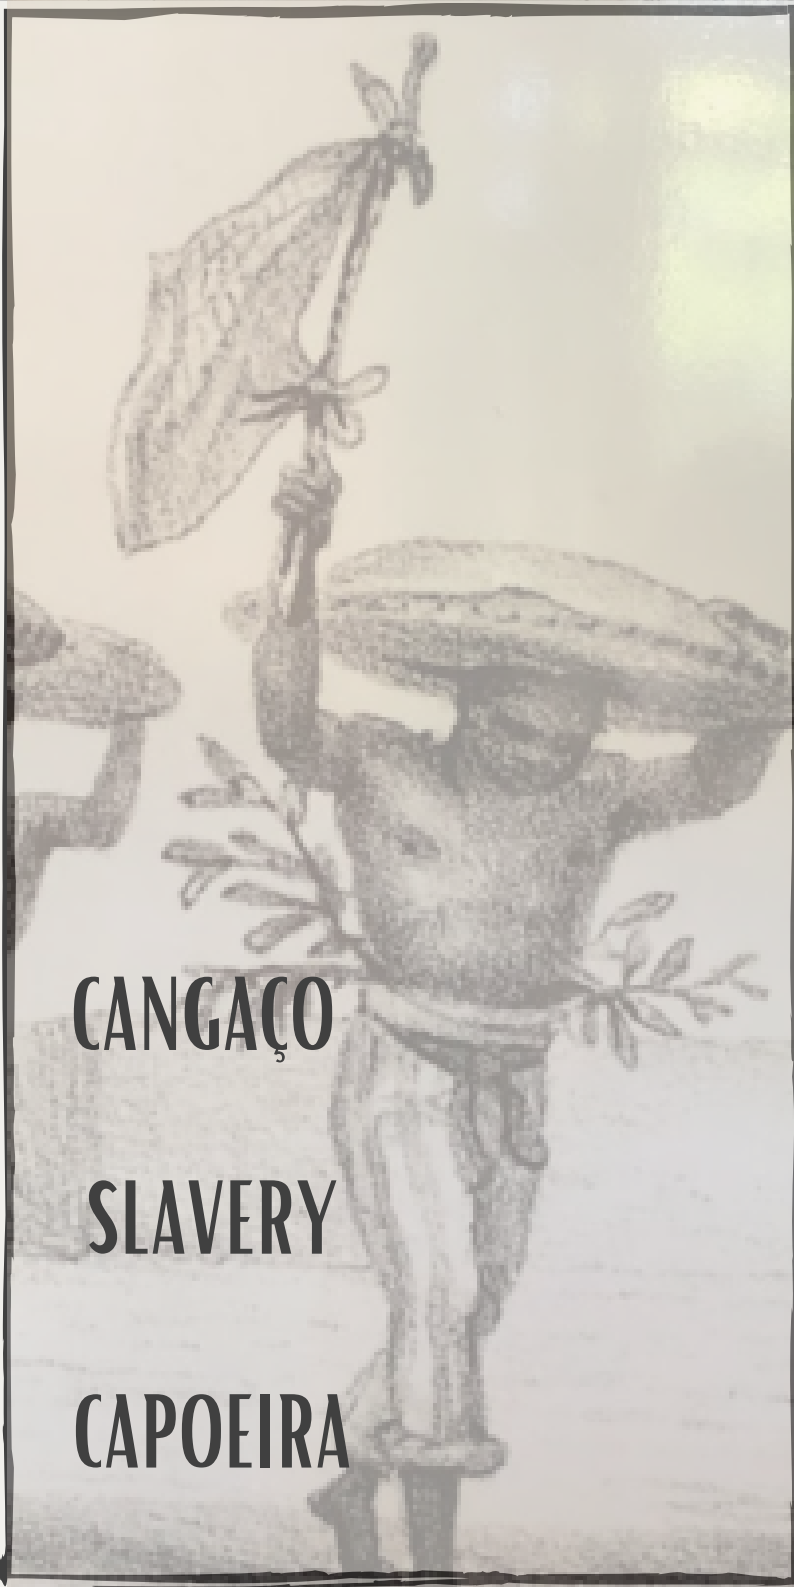

Two major themes are approached: the first, Justice and Liberty, introduces the discussion about the meaning of freedom and the responsibilities that flow from it. The second theme, Justice and Citizenship, shows the existing paths for the exercise of rights and the fulfillment of duties.

JUSTICE

LIBERTY

CITIZENSHIP

CANGAÇO

SLAVERY

CAPOEIRA

Collected from Recife and other Comarcas in Pernambuco's country, the historical documents that are safeguarded by the Memorial contemplate different natures - their narratives are an invitation to discovery.

THESE

documents serve as a starting point for us to think and discuss Liberty, Citizenship and access to Justice.
